

Regents Courses Offered in Grade 8

Dobbs Ferry Middle School offers Regents Courses in the areas of Math and Science. These high school level courses are appropriate for students who excel in Math and/or Science, are highly academically motivated, and desire to tackle the rigors of a high school level curriculum.

Criteria for Algebra 1 Regents:

Eighth grade students are recommended for Algebra 1 based upon the general criteria listed below. Students who have not met placement criteria and are interested in taking this course should contact their School Counselor to discuss the waiver process.

- A cumulative average of 92 percent or above in Math 7
- Teacher Recommendation based upon the [Middle Years Program \(MYP\) Approaches to Learning Skills](#)

Criteria for Earth Science Regents:

Eighth grade students are recommended for Earth Science based upon the general criteria listed below. Students who have not met placement criteria and are interested in taking this course should contact their School Counselor to discuss the waiver process.

- A cumulative average of 95 percent or above in Science 7
- Teacher Recommendation based upon the [Middle Years Program \(MYP\) Approaches to Learning Skills](#)
