The Committee discussed the status of the fall coaches and Andrew reports that we are fully staffed for Varsity and Modified teams with the exception of JV Boys Soccer.

The Committee discussed some of the merged teams. We continue to have a small number of requests for merged teams to become part of the athletic program in the District.

The Committee discussed the Gould Park stereo system. The District has a system that we provide for football games and we do not see the benefit of purchasing a separate, new system to be installed at Gould.
