

Dobbs Ferry Middle School Fall Modified Sports Update

Good Afternoon Dobbs Ferry Athletes and Families,

I would like to thank all of you for your patience while awaiting the decision regarding the status of this Fall's Modified Sports Season. We regret to inform you, Section One notified us of the cancellation of this Fall's modified sports season last night. Although this is an unfortunate outcome for our middle school athletes, I would like to assure you that we, as a district and department, are evaluating alternative in-district opportunities that will provide our students with foundational skills and concepts reflective of a typical interscholastic experience.

While we iron out the details surrounding this opportunity, I ask for your continued patience and understanding.

Andrew Klaich

Director of Physical Education, Health and Athletics
