

**COURSE OUTLINE**

**SUBJECT:** Theater Arts

**GRADE:** 8

**COURSE DESCRIPTION**

Theatre Arts offers 8th Grade students the opportunity to explore: theatre history and vocabulary; see and analyze live performances; learn and work on various aspects of technical theater including directing, stagecraft, light/ sound, publicity, and design; participate in all aspects of a theatrical production; study and perform acting; and create, direct, and perform in an original work. As an MYP Arts class, all students in Theatre Arts will create and maintain an online process journal, demonstrating their growth and achievement as students of the theatre. This class meets every other day, so independent practice is important to help students improve and develop the necessary theatrical skills. There will be one 8th Grade Theatre Arts Play at which all students are expected to perform and/or participate backstage to showcase their hard work and growth.
