

COURSE OUTLINE

SUBJECT: Individuals and Societies

GRADE: 7

Offered: Full Year

Type of Course: Required

Social Studies 7 is the first year of a two-year survey course in United States History. The course begins with a study of the Pre-Columbian Era and ends with the Civil War. Students will study the curriculum in chronological order; beginning with how the early inhabitants of the Americas lived and how life changed with the introduction of European peoples and their culture. Important skills will be learned throughout the course of the year, which will allow students to develop as historians and be prepared for future courses in social studies. Both traditional and alternative assessments are utilized throughout the course, and each student is encouraged to utilize their individual talents. Constant connections are made between the time periods studied and the world students live in today.
