Part 1:

- Read and take notes on [this excerpt from *Give Me Liberty! An American History, Volume 2*, by Eric Foner](#). (Note: this is my college textbook that I photocopied, I bought used, don't judge the weird highlighting/underlining - it may not all belong to me!)
- Create a document with the correct title (your last name, title of the assignment) and take detailed notes in outline format. [This is an example of what your notes should look like.](#)

Part 2:

- [Spend some time with these words](#). Get good definitions for them that make sense to you, then try to explain it in your own words with examples.

Part 3:

- Find a supplemental material (map, article, image, etc) that relates to one section of the reading.
- Write a paragraph explaining what you found and how it relates to what you learned. (Think about the vocabulary words as well. Can you incorporate some of them?)
